

Create a PowerPoint slideshow with narration on Mac OS

- 1- Open your PowerPoint presentation (your presentation must be already written)
- 2- Check the volume of your microphone and test it
- 3- To start the recording of the voice narration
 - PowerPoint Slideshow tab, select "**Record slideshow**" by selecting the first slide to comment

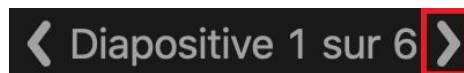

- Click on the recording button to start it (you can deactivate the speaker's thumbnail recording if you wish)

- Then click on "**stop the slideshow**" to end it or "**Play / pause button**" to pause

- The recording starts directly. You can pause, repeat, or move to the next slide

Note : do not speak during the slide transitions

4- Save your slideshow

Once the narration of your PowerPoint is complete, you can "**Save as**"

1. **Editable** PowerPoint "pptx" format
2. **Not Editable** PowerPoint slideshow "ppsx" format
